XL Inventory Management Software Description: XL Inventory Management Software is a simple and cost effective Inventory management software for small and medium scale business. It is very useful in businesses with fewer number of products. It gives simple user interface with several options. It is very easy to use as it supports drag & drop, calendar, touch screen, and emails for printing invoices. Users can see all transactions on a day with the dates of all receipts and payments in a separate window. It gives a total price of the items sold, net amount of inventory, total income and other accounts details. Features include history view, multi-currency support, total price list, contact list, transaction details, web print, tax rate and year, customized product lists, various transaction types, tree view report, and much more. It also has optional fields for payment method, bank account details, delivery notes, seller notes, ware house no. and date of delivery. Installation: • Copy files from the CD to your hard disk. • Copy folder files (if required) to your hard disk. • Unzip folder. • Adjust system.ini and application.ini as required. • Run software. Accounting Tool Description: Accounting Tool is a small free accounting software that is both easy to use and simple. It is a standalone application unlike other accounting tools that require a database. Users can easily download and install this program. After installation, the Accounting Tool is very easy to use. Using Accounting Tool is simple and user friendly with the help of its wizard

System Requirements For All-in-One Invoice Software:

For running the game you will need a copy of the DX10 drivers for Windows 7 (like that the DX11 version). If you have a computer with Windows 7 already installed on your PC you can skip this part and download the DX10 version. You also need one of the DirectX SDKs (the DX9 or DX10 version). In the download you will find the installer. Just open it and follow the installer instructions. If you are using the DX9 SDK, make sure to run the installer with Administrative privileges. A note: There is no
